Powerful validation of sustainability excellence

# SIG achieves a record EcoVadis score and platinum status once again

SIG has reached a new milestone in sustainability excellence, achieving a record score of 96/100 in the 2024 EcoVadis rating for Corporate Social Responsibility (CSR), a significant increase from 86/100 in 2023. This outstanding performance secures SIG the prestigious platinum medal for the sixth consecutive year, placing the company once again in the top 1% of all companies assessed by EcoVadis worldwide.

In 2024, the EcoVadis assessment for the first time included SIG's acquired bag-in-box, spouted pouch, and fresh carton businesses. With our extended scope, SIG excelled by scoring a perfect 100/100 in both the Environment and Labor & Human Rights categories.

### Continued leadership in sustainability

EcoVadis, the globally recognized rating platform, assesses companies on their policies, practices, and performance in four areas: Environment, Labor & Human Rights, Ethics, and Sustainable Procurement.

SIG's score reflects its unwavering commitment to driving meaningful environmental and social progress while delivering sustainable solutions across its entire supply chain.

"Our recent EcoVadis score is a validation of SIG's leadership in sustainability," said **Stefan Dobrev, Vice President Corporate Development & Sustainability at SIG**. "Achieving a perfect score in key areas like Environment and Labor & Human Rights underscores the dedication of our teams worldwide. This recognition strengthens our resolve to go even further as we work towards our ambition to contribute more to people and the planet than we take."

EcoVadis has assessed more than 130,000 companies globally, providing a rigorous and transparent evaluation to help businesses manage ESG risks and foster sustainable supply chains.

SIG's consistent progress in the EcoVadis rankings since first achieving the platinum rating in 2017 demonstrates the company's ongoing focus on sustainability innovation, responsible

business practices, and commitment to creating positive impacts across its operations and beyond.

### **About SIG**

SIG is a leading solutions provider of packaging for better – better for our customers, for consumers, and for the world. With our unique portfolio of aseptic carton, bag-in-box, and spouted pouch, we work in partnership with our customers to bring food and beverage products to consumers around the world in a safe, sustainable, and affordable way. Our technology and outstanding innovation capabilities enable us to provide our customers with versatile packaging systems and solutions for innovative products and smart operations, all to address the ever-changing needs of consumers. Sustainability is integral to our business and guides us on our journey to create packaging for better – packaging that gives more to people and the planet than it takes out.

Founded in 1853, SIG is headquartered in Neuhausen, Switzerland, and is listed on the SIX Swiss Exchange. The skills and experience of our approximately 9,000 employees worldwide enable us to respond quickly and effectively to the needs of our customers in over 100 countries. In 2023, SIG produced 53 billion packs and generated €3.2 billion in revenue. SIG also has an AA ESG rating by MSCI, a 10.5 (low risk) score by Sustainalytics, Platinum CSR rating by EcoVadis, and is included in the FTSE4Good Index.
