Acknowledgment for sustainability achievements

SIG Group recognized among world's sustainability leaders in S&P Global Sustainability Yearbook 2025

SIG Group has secured a place in the prestigious S&P Global Sustainability Yearbook 2025, reaffirming its position as one of the world's leading companies in sustainable business practices. This recognition underscores SIG's ongoing commitment to sustainability across its supply chain as well as transparent communication of its progress.

The S&P Global Sustainability Yearbook recognizes the top-performing companies in sustainability practices worldwide, across a wide range of industry-specific economic, environmental, and social criteria. To be included, companies must rank in the top 15% of their industry in the S&P Global Corporate Sustainability Assessment (CSA). For the 2025 edition, only 780 companies from 7,690 assessed across 62 industries met these stringent criteria.

“Being recognized once again in the S&P Global Sustainability Yearbook is a testament to our commitment to sustainability and responsible business practices,” said **Stefan Dobrev, Vice President of Corporate Development & Sustainability at SIG**. “This external validation reinforces our dedication to transparent progress and continuous improvement across our supply chain. Sustainability is at the core of everything we do, guiding us as we develop regenerative solutions to create lasting change. Sustainable innovation and a responsible culture are central to this.”

SIG's sustainability strategy revolves around its journey to create “packaging for better” – a commitment to creating regenerative packaging solutions that give more to people and the planet than they take.

Industry-wide recognition for ESG excellence

SIG's inclusion in the S&P Global Sustainability Yearbook 2025 adds to its growing list of international recognitions. The company holds an AAA ESG rating from MSCI, a 10.5 (low risk)

score from Sustainalytics, a Platinum CSR rating from EcoVadis, was included in two Dow Jones Sustainability Indices (DJSI), and is featured in the FTSE4Good Index.

About SIG

SIG is a leading solutions provider of packaging for better – better for our customers, for consumers, and for the world. With our unique portfolio of aseptic carton, bag-in-box, and spouted pouch, we work in partnership with our customers to bring food and beverage products to consumers around the world in a safe, sustainable, and affordable way. Our technology and outstanding innovation capabilities enable us to provide our customers with versatile packaging systems and solutions for innovative products and smart operations, all to address the ever-changing needs of consumers. Sustainability is integral to our business and guides us on our journey to create packaging for better – packaging that gives more to people and the planet than it takes out.

Founded in 1853, SIG is headquartered in Neuhausen, Switzerland, and is listed on the SIX Swiss Exchange. The skills and experience of our approximately 9,000 employees worldwide enable us to respond quickly and effectively to the needs of our customers in over 100 countries. In 2023, SIG produced 53 billion packs and generated €3.2 billion in revenue. SIG also has an AAA ESG rating by MSCI, a 10.5 (low risk) score by Sustainalytics, Platinum CSR rating by EcoVadis, and is included in the FTSE4Good Index.
