Packaging solutions provider in top 1% of companies for sustainability performance

SIG awarded platinum status from EcoVadis for fifth consecutive year

For the fifth consecutive year, SIG has been awarded the highest platinum sustainability status in the EcoVadis rating for Corporate Social Responsibility (CSR). This ongoing prestigious platinum rating puts SIG once again in the top 1% of participating companies, who have been rigorously assessed by EcoVadis.

The EcoVadis assessment process is designed to improve transparency and promote continuous improvement on sustainability in the supply chain, enabling customers to monitor performance and identify high performing partners. The assessment process and methodology are based on international sustainability standards and supervised by a scientific committee of CSR and supply chain experts. This recognized external assessment gives customers the confidence that SIG is a responsible partner in the supply chain.

SIG first achieved its top EcoVadis percentile position in 2017 and since then the company continues to improve its overall score, driving progress towards its net-positive ambition to put more into society and the environment than it takes out.

Dr Christian Bauer, Head of Environmental Sustainability at SIG: “It’s a great honor for us to receive this recognition once again from a highly recognized independent body. For the fifth year running, this platinum award is a testimony to our responsible culture and unwavering commitment to sustainability. This top accolade puts SIG amongst the world’s leading companies in terms of sustainability performance and motivates us to stretch further than we have ever gone on our roadmap for better.”

To date, EcoVadis has assessed more than 100,000 trading partners worldwide, helping companies to manage ESG risk and compliance, and drive impact at scale by guiding the improvement of sustainability performance. EcoVadis scores are based on a detailed independent assessment of policies, processes and performance related to the environment, labor and human rights, ethics and sustainable procurement criteria that's most relevant to a company's size, location and industry.

About SIG

SIG is a leading solutions provider of packaging for better – better for our customers, for consumers, and for the world. With our unique portfolio of aseptic carton, bag-in-box, and spouted pouch, we work in partnership with our customers to bring food and beverage products to consumers around the world in a safe, sustainable, and affordable way. Our technology and outstanding innovation capabilities enable us to provide our customers with versatile packaging systems and solutions for innovative products and smart operations, all to address the ever-changing needs of consumers. Sustainability is integral to our business and guides us on our journey to create packaging for better – packaging that gives more to people and the planet than it takes out.

Founded in 1853, SIG is headquartered in Neuhausen, Switzerland, and is listed on the SIX Swiss Exchange. The skills and experience of our approximately 9,000 employees worldwide enable us to respond quickly and effectively to the needs of our customers in over 100 countries. In 2022, SIG produced 49 billion packs and generated €3.1 billion in pro forma revenue (incl. unaudited revenue from recent acquisitions). SIG has an AA ESG rating by MSCI, a 13.9 (low risk) score by Sustainalytics, a Platinum CSR rating by EcoVadis, and is included in the FTSE4Good Index. For more information, visit our [website](#).
